

Tivoli Storage Manager capabilities

Tivoli Storage Manager has several key technical features that make it flexible, efficient and easy to operate:

- **Centralized management**—Tivoli Storage Manager is a client/server application capable of managing thousands of clients with a few servers. It uses a flexible hierarchy of administrators to reflect business processes or organization.
- **Intelligent data movement**—Tivoli Storage Manager uses multiple techniques to minimize data transfer sizes and the time required for data backups and data restores.
- **Policy-based automation**—Tivoli Storage Manager lets you implement granular policy management for fully automated data protection, allowing a single administrator to handle data protection for hundreds or thousands of client computers.

Optional software modules:
