Procure-To-Pay

Fixed Price
Smooth Start Offering

Giving your Accounts Payable department:

- ✓ Simple and fast reconciliation of purchase orders and invoices
- ✓ Immediate access to invoices to assist with GL reconciliation.
- ✓ Real time access for branches, customers and suppliers.
- ✓ Low Cost Backup and Disaster Recovery
- ✓ Accounts Payable On-line
- ✓ Improved Audit Control
- ✓ Secure web access
- ✓ Reduced Costs

Do I need a Procure-To-Pay Workflow Solution?

Procure-To-Pay/Accounts Payable (AP) procedures can be a challenge for organisations. Complex manual processes and increasing invoice transactions prove costly and time consuming, impacting across the business.

Does your company...

- ✓ Suffer large costs and time reconciling invoices and purchase orders?
- ✓ Have full or part time staff performing invoice data entry?
- ✓ Struggle to achieve accounts payable service level commitments?
- ✓ Suffer from the overhead cost of invoice storage and retrieval to comply with customer queries, audit and legal guidelines?
- ✓ Have a backup process and solution of customer invoices and files to protect against possible loss, fire or flood?
- ✓ Look for solutions to reduce the risk of compliance and audit exposures?

As technology is changing the way AP departments' function, it is now easier to overcome these difficulties by introducing more efficient practices. Automation is driving productivity and efficiency, as well as cost reduction. To benefit further, many organisations are strengthening their systems by integrating their AP solution with their ERP, accounting, workflow and/or document management business applications.

Convenient solutions to suit you

Integritie's Procure-To-Pay Smooth Start package is designed to offer customers cost effective and convenient solutions at a fixed price, which help to improve efficiency and accuracy within the Accounts and Procurement environment.

The Smooth Start Solution

With this Smooth Start Solution your business will benefit from:

- ✓ A dramatic reduction in the cost of processing invoices, from data entry to process automation.
- ✓ Significant improvement of the Procure-To-Pay process cycle time and user productivity for checking, processing and signing of financial transactions.
- ✓ Easier view and approval of documents in separate facilities using email and the web.
- ✓ Vastly reduced storage space needed for invoices and other financial documentation.
- ✓ Backup and audit compliance of accounts information.
- ✓ Immediate document reprint facilities, including on-line faxing, printing and emailing of invoices or credit notes.
